

YTMusicUploader.Business.
ThrottledStream.Read

YTMusicUploader.Business.
ThrottledStream.Write

YTMusicUploader.Business.
ThrottledStream.Throttle

```
graph LR; A[YTMusicUploader.Business.ThrottledStream.Read] --> C[YTMusicUploader.Business.ThrottledStream.Throttle]; B[YTMusicUploader.Business.ThrottledStream.Write] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes represent source methods: 'YTMusicUploader.Business.ThrottledStream.Read' (top) and 'YTMusicUploader.Business.ThrottledStream.Write' (bottom). On the right, a gray rectangular box represents the target method: 'YTMusicUploader.Business.ThrottledStream.Throttle'. Two blue arrows originate from the right side of the source boxes and point towards the left side of the target box, indicating that both 'Read' and 'Write' methods interact with or call the 'Throttle' method.
