MusicDataFetcher.GetReleaseFrom  
MusicBrainzWithAlbumNameVariations"] --> B["YTMusicUploader.Business.  
MusicDataFetcher.GetReleaseFrom  
MusicBrainz"]
```

This diagram illustrates a call to the `GetReleaseFromMusicBrainzWithAlbumNameVariations` method. The call is represented by a grey rectangular box on the left, which contains the fully qualified class name and the method name with its argument. A blue arrow points from this box to a white rectangular box on the right, which represents the same call but without the argument, indicating a simplified or abstracted version of the operation.
